

FIG. 2A

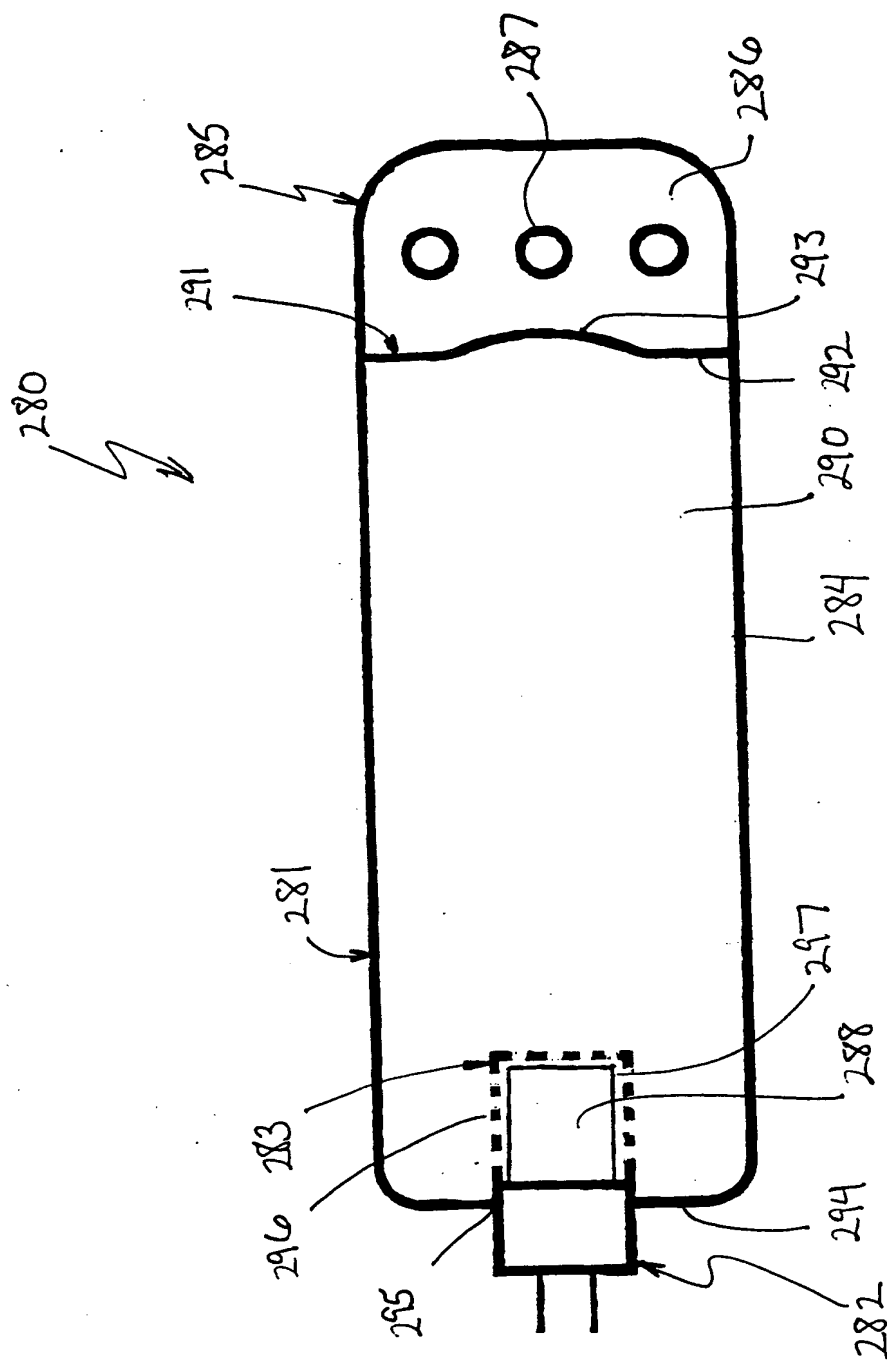

FIG. 2B

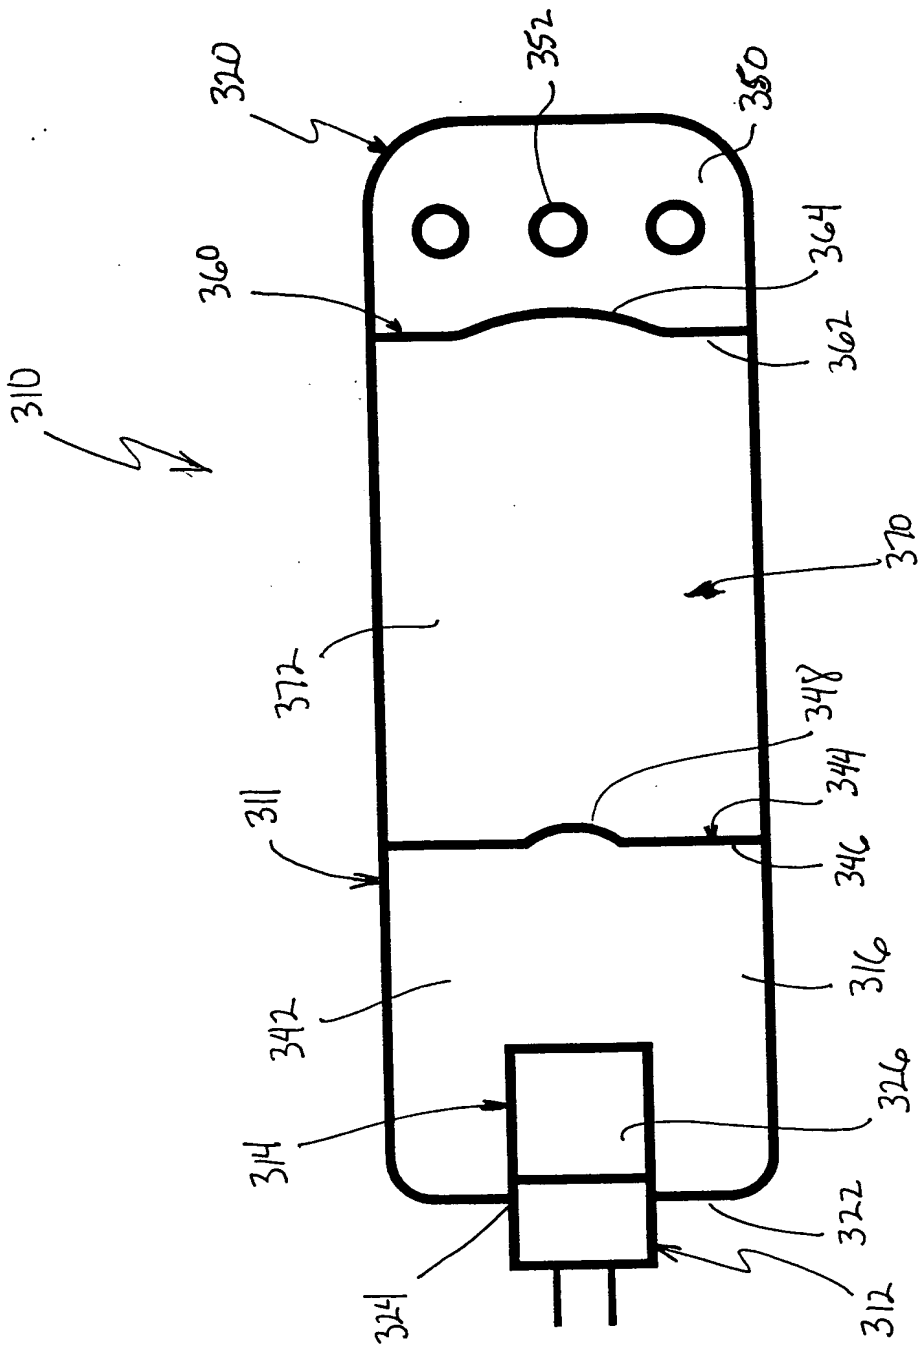

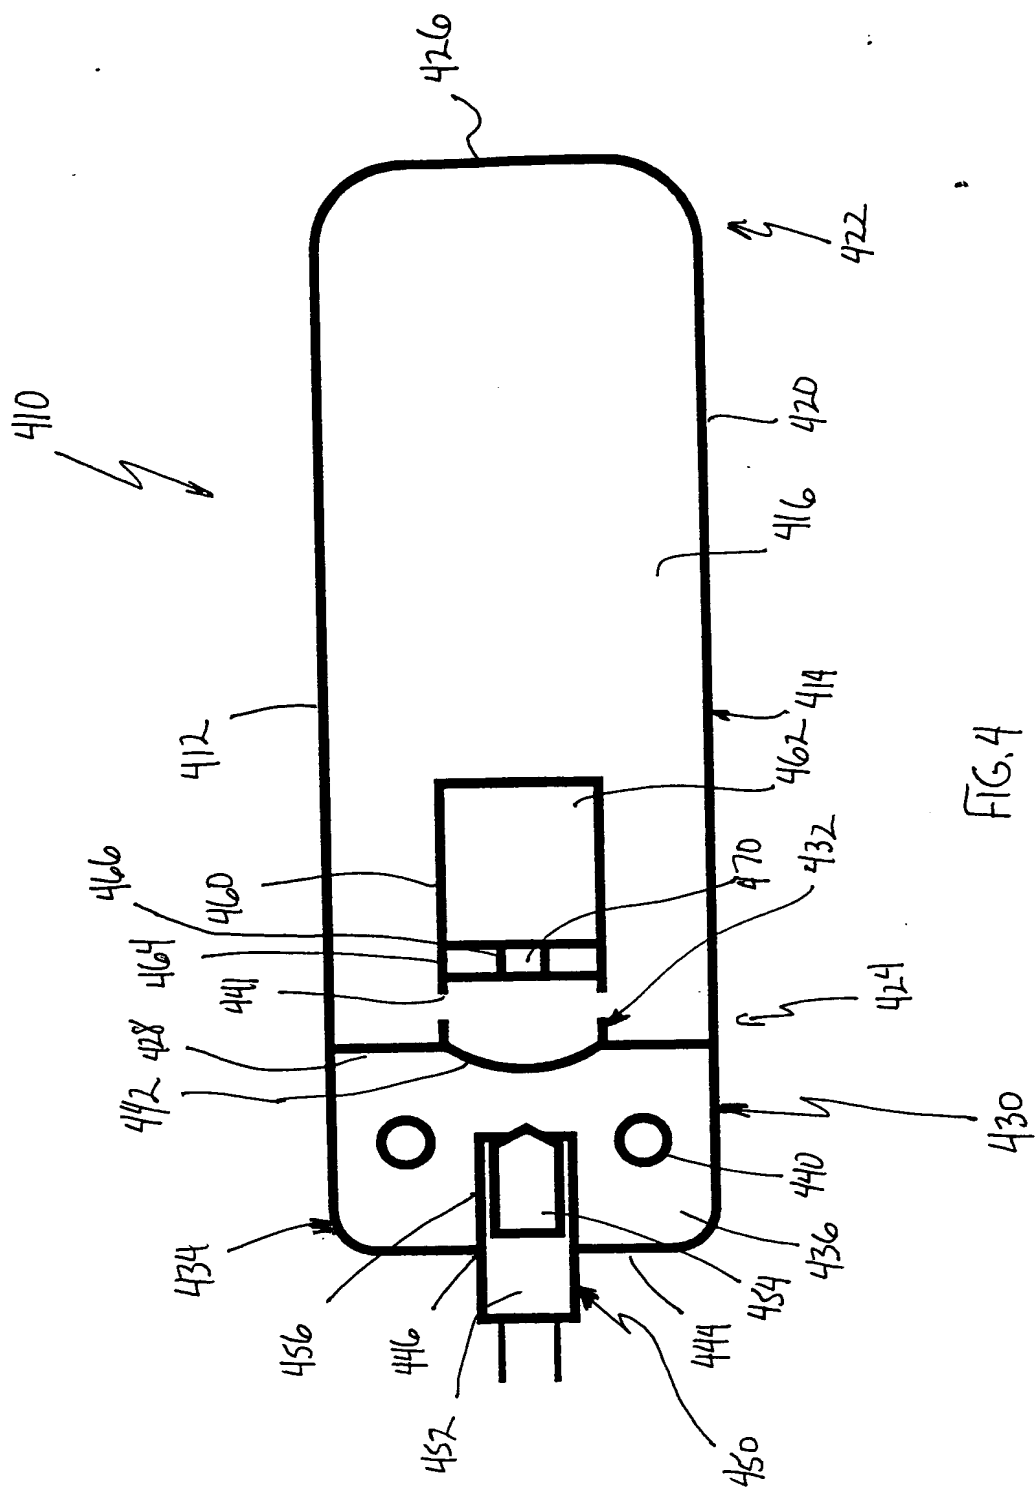

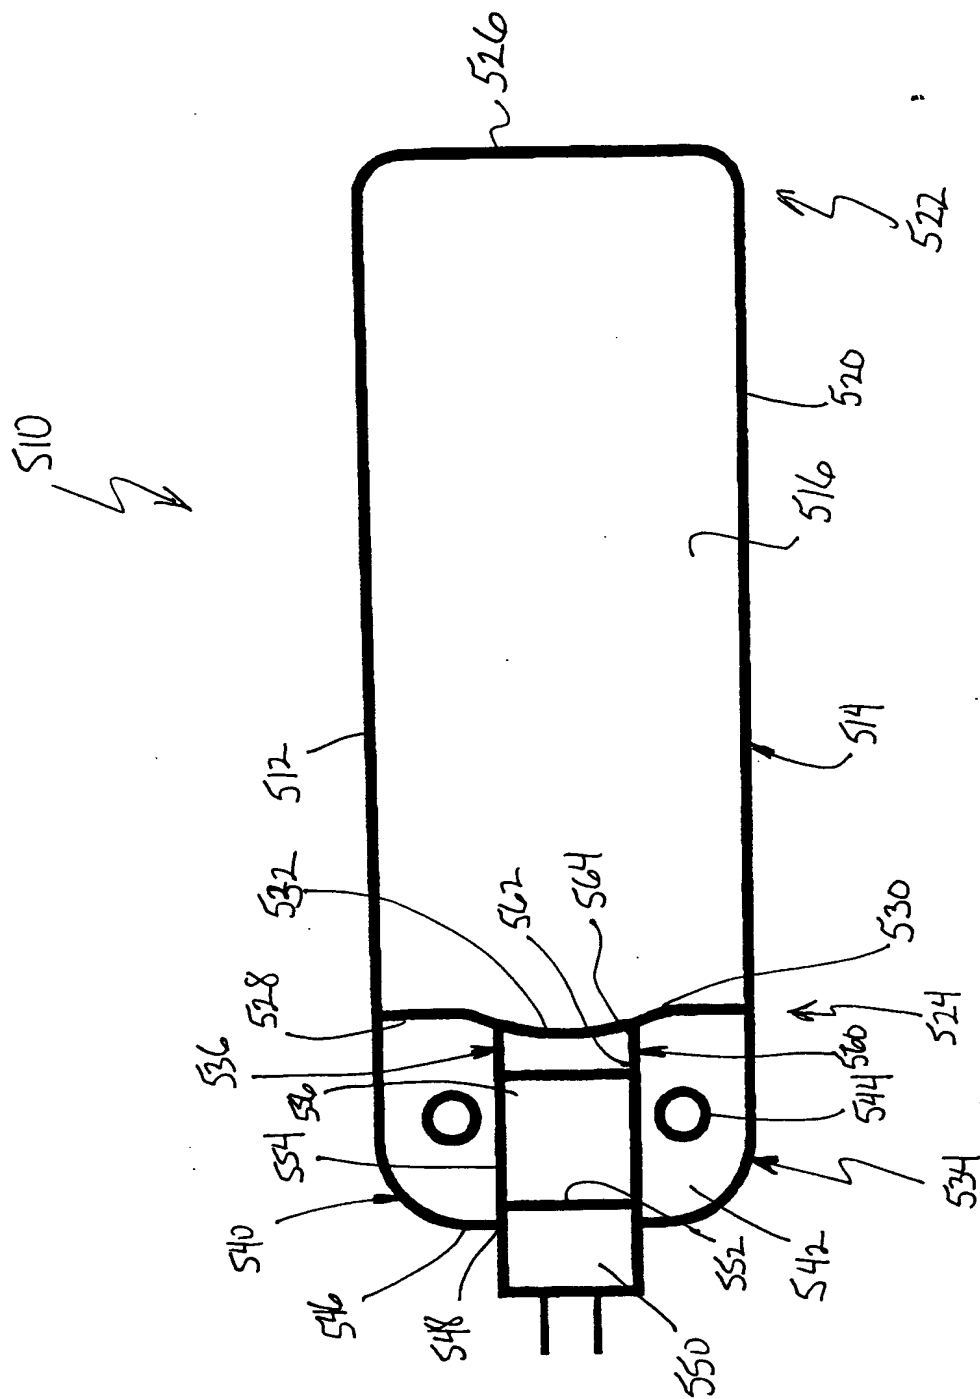

FIG. 3

The graph displays the relationship between Tank Pressure (PSI) and Time (mSec). The pressure starts at 0 PSI at 0 mSec, rises to a peak of approximately 40 PSI at 10 mSec, and then gradually decreases to about 35 PSI at 100 mSec.

Time (mSec)	Tank Pressure (PSI)
0	0
10	40
20	38
30	37
40	36
50	35.5
60	35
70	34.5
80	34
90	33.5
100	33
